The logo for SWG Events features the letters 'SWG' in a large, stylized, white-outlined font. Below it, the word 'EVENTS' is written in a smaller, white, sans-serif font. The background of the entire page is a dark, grayscale image of a metal truss structure, likely used for event rigging, with a perspective that recedes into the distance.

SWG EVENTS

SWG Events have been delivering full productions for large scale festival sites for 35 years and have as such built a stock to fulfill any production solutions. - These include Staging, Crowd Barrier, Power Distribution, Festoon & Work Light, Cable Ramp & a wide range of Rigging Infrastructures.

Staging

SWG Events stock lite deck in various dimensions. We can design bespoke systems, catering for your footprint and height requirements.

Whether your stage is internal or external, on a solid flat floor or grass field, or as a riser for an LED wall or PA we can help advise on a solution for your event.

Crowd Barrier

SWG Events have a large quality Eurotruss crowd barrier which we utilize across our summer calendar externally and winter work indoors. With corner pieces and gates available we can supply any length or shape required.

Festoon & Work Light

SWG Events offer both LED and incandescent festoon in 25m lengths. Festoon offers a scalable and intimate lighting solution which can really set the scene for evening events.

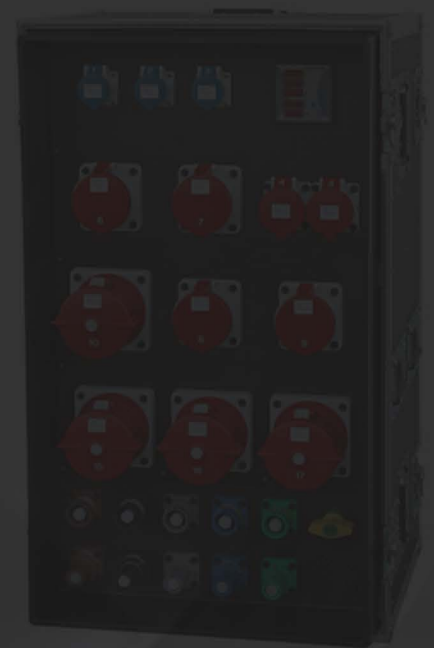

Work lighting can be essential for the safe operation of night works across any events size. Work and emergency lighting packages can be provided to keep your site safe.

Power Distribution

SWG can provide a wide range of power distribution and heavy mains solutions for your event.

We stock a wide range of units which cover all aspects of Three Phase & Single Phase power distribution.

All devices are regularly tested and provide electrical protection on incoming & outgoing supplies.

Cable Ramp

In straight and corner sections, cable ramp can not only protect import cabling infrastructure travelling across site but also removes trip hazards which is of course a great tick in the box of health and safety officer.

Truss, Towers & Rigging

SWG hold rental stock of various truss solutions including Prolyte H30V Box and Milos M290 Trio Truss perfect for ground stacked and flown lighting and LED deployments.

Sound systems are supported by our Prolyte self-ballasting S40T 10m and Prolite 7m V Towers. These systems allow for large format PA deployments in remote greenfield locations where stage rigging isn't possible.

In venues or structures where truss is not required SWG events also stock a wide catalogue of rigging equipment and electric hoists including

250kg, 500kg and 1 Ton EXE-Rise D8+
LV Control Packages
and Manual Chain Hoists.

SWG also stock additional rigging accessories such as Spansets, Softsteels, Shackles, Master Rings & Shackles Half Couplers, Cader Clamps, I-Beam Clamps, Steel Wire Slings
