SWG EVENTS

SWG Events have been working on high end corporate events and private parties for over 35 years. Drawing on this wide range of experience, across live events and all AV disciplines to produce quality, memorable and technically impressive shows for our clients.

From Exhibitions & Weddings to Polo Events and large-scale corporate arena shows our attention to detail, understanding of technology and world class equipment continue to excite our long-standing customer base and invite new clients to our calendar. *Whatever the size or scale of your event, SWG will have a package to suit your requirements.*

Royal Polo Events, Private Parties & Weddings

The Royal Polo events span the year at various locations across the UK, requiring compact, discreet but high energy audio solutions to cater for both indoor and outdoor settings. From the Bar lighting, staging and band audio to external LED walls with live visual and audio feeds from the event.

Events from intimate weddings to large scale private celebrations have dotted our calendar this year, with discreet wireless solutions allowing for remote locations to be made easily accessible when these can be a challenge.

"I have had the pleasure of working with Alister, Mark and the team at SWG for in excess of 20 years."

Marcus Rendle – Operations Director EI Productions

NHS Wales Awards

For over 5 years SWG have supported the NHS Wales Trust with their annual awards show supplying a full Audio Visual package.

By supplying all technical elements required, inclusive of Audio, Lighting, Video & Special FX, SWG are able to create an event that both our clients and we are proud of.

"SWG provided us with an extremely high-quality event at the NHS Wales Awards 2018. They were always available to give advice and guidance on the best course of action and were able to help us deliver an intricate and effective awards show that was received well and transformed the way we aim to continue this event for the coming years.

We cannot recommend SWG enough."

Nick Gooding – Events Manager NHS Wales

Team Defence Information

When vocal clarity is key, quality equipment, system design and technical expertise goes hand and hand. Our AV production team have years of experience to ensure every word is heard from the front to the back.

By adapting to modern times, SWG have been able to bring participants to events together even across the world. Using the latest technology to incorporate even the most remote candidate into the meeting. This now gives our clients access to a wider range of contributors to the delegation than before.

"SWG are able to adapt the ever changing demands of our conferences and events. They are experts at planning a head and ensuring the event is running smoothly"

Graham Smith - Team Defence Information

English Heritage Stone Henge Platinum Jubilee Tribute

SWG were approached by English Heritage to help create a celebratory tribute to Her Majesty Queen Elizabeth II Platinum Jubilee.

By deploying the latest in projection technology, SWG were able to fully map the images provided to the world famous surfaces of Stonehenge, to create a timeline mapping the years of her reign.

SWG are proud to have had the honour of being involved, in creating this historical tribute.

Mobos 2022 Award Show

The 25th MOBO Awards marks a milestone event for the organisation. SWG Events were delighted to be awarded the audio contract.

This unique event is mainly based around its global television audience but requires a solid live experience to match.

SWG were able to integrate in to the existing event designs by managing Playback, RF, Systems, FOH & Monitors.

SWG also provided a full split for broadcast

“For a show of this complexity I need someone I could trust to understand the show, find a solution to various elements, and deliver it seamlessly. Their choice of equipment was second to none, and the show went really well.”

Rob Smalldon - Marvellous Inc's
